

SETTING UP APPLICATION ENVIRONMENT

CREATE SENGRID ACCOUNT

The screenshot shows the Twilio SendGrid dashboard for a user named Aileen Lincy. The dashboard includes a sidebar with navigation links: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS. The main content area is titled 'Welcome, Aileen!' and provides instructions on how to get up and running quickly. A prominent blue banner reads 'Send your first emails with Twilio SendGrid'. Below this, the 'Create a sender identity' section explains that a sender identity is needed before sending emails and offers two ways to create one: 'Create a Single Sender' (highlighted with a blue button) and 'Authenticate a domain instead'. A diagram illustrates the sender identity as the 'from' email address recipients see in their inbox, showing an example: 'Your Business <jane.doe@your_business.com> to me'. At the bottom, a 'Send your first email' section prompts the user to create a sender identity before sending their first email. The bottom of the screen shows a Windows taskbar with various application icons and a system tray displaying the date and time (11:53, 11-11-2022).

Aileen Lincy

Welcome, Aileen !

To get up and running quickly, please follow the steps outlined below.

Send your first emails with Twilio SendGrid

Create a sender identity

Before sending email, you'll need to create a sender identity. There are [two ways](#) to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.

Your sender identity is the "from" email address your recipients will see in their inbox. [Learn more](#) about this.

[Create a Single Sender](#) [Authenticate a domain instead](#)

Your Business <jane.doe@your_business.com> to me

Send your first email

Please create a sender identity before sending your first email.
